Tips & Tricks

Search

- The search feature is not case-sensitive. Don't waste time using capitalization.
- You can search by partial text. E.g., 1234 would match a phone number of “(208)426-1234” or “(123)481-2343”. When searching for names just enter a portion of the first or last name. E.g., jo would match “Jo”; “Joe”; “John”; “Joanne”; etc.
- Enter a space in the search text box to see all Recipients in the system.

Buttons

- All of the buttons have “hot keys”. Notice the text on the button when you press the “Alt” key on the keyboard. “Save” will be displayed as “Save”. Pressing Alt+S is the same as pressing the button. This just saves from having to use the mouse to press buttons.

Forms

- You can tab between form fields and buttons by using the Tab key on the keyboard
- You can close the current form by pressing Alt+F4
